

Web Development & Digital Platform Portfolio

FindOurCollege.com (FOC)

www.findourcollege.com

US college planning & guidance platform

A comprehensive WordPress-based platform helping US students and families navigate college planning, admissions guidance, and financial aid resources.

- Built on WordPress + PHP, with custom HTML/CSS/JS blocks for article layouts (instead of page builders) for full design control and speed
- Custom WordPress plugins power the appointment booking and SAT workshop registration systems
- Technical SEO: JSON-LD structured data (schema markup) across key page types
- Core Web Vitals & PageSpeed optimization for fast, mobile-friendly performance
- Digital marketing setup: Meta Pixel, Google Search Console, Bing Webmaster Tools

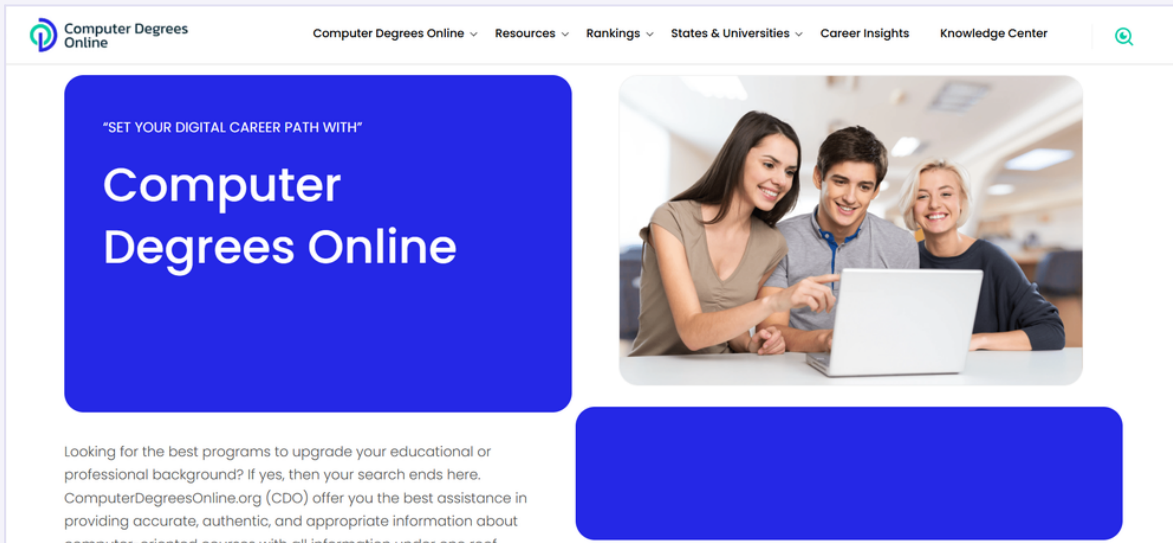

College Funding Specialists TX

collegefundingspecialiststx.com

Austin-based college financial planning consultancy

A full seven-page marketing site built for founder Ryan Thomson's college financial planning practice, later converted into a custom WordPress theme.

- Originally a custom vanilla HTML/CSS/JS build, converted into a custom WordPress theme for easy content management
- Custom "Founder Hero" About page and branded workshop marketing flyers
- Purpose-built "CFS Lead System" WordPress plugin (own database table, admin dashboard, workshop management) instead of a third-party form plugin — keeps lead data in-house, spam-protected without CAPTCHA
- LiteSpeed Cache handles performance; deployed and actively maintained on Hostinger

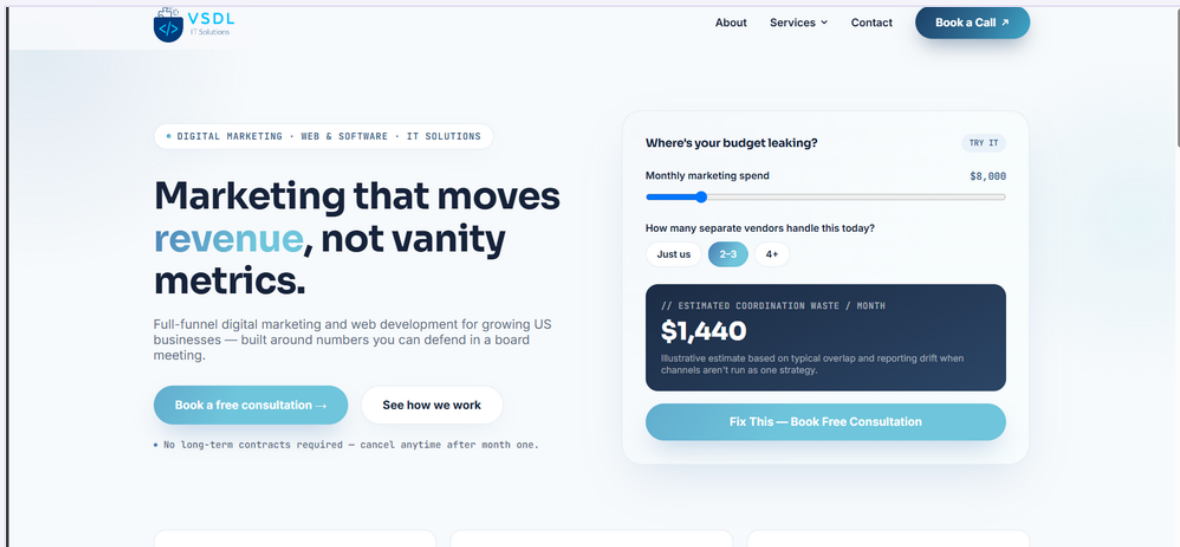

ComputerDegreesOnline.org (CDO)

www.computerdegreesonline.org

Online computer science degree & career guidance resource

A research-driven education platform helping students compare accredited online computer science programs — from associate through doctorate level.

- Built on WordPress, with WP Rocket handling caching and performance
- 700+ college program rankings and 1,500+ college planning guides
- Structured, methodology-based rankings sourced from IPEDS, NCES and BLS data
- Dedicated resource hubs for financial aid, scholarships, and career guidance

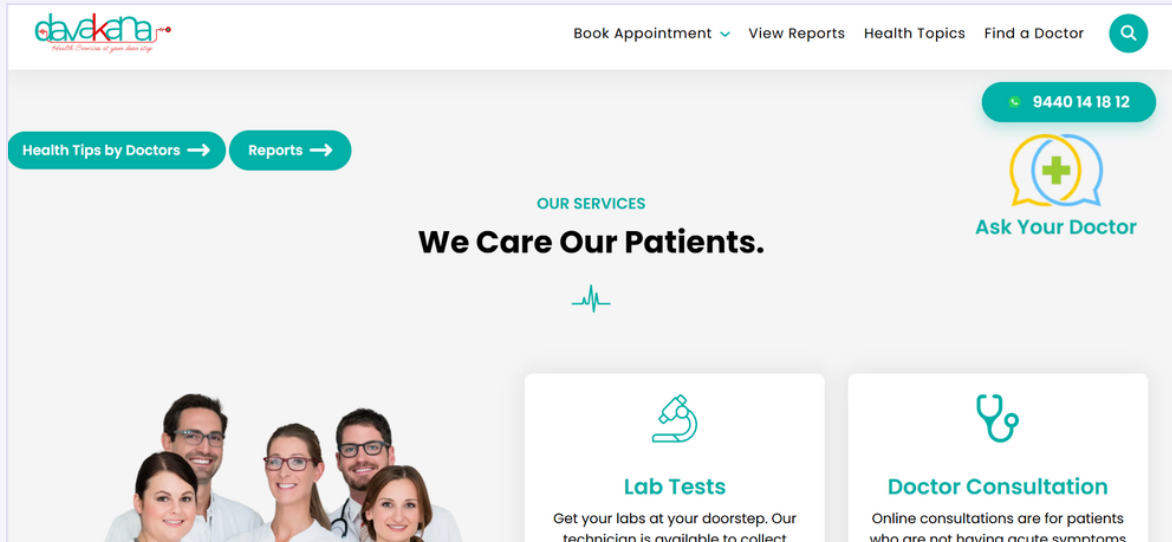

VSDL IT Solutions

vsdlsol.com

Digital marketing, web/software development & IT solutions consultancy

A full multi-page marketing site for a Leander, TX based IT services consultancy, covering digital marketing, web and software development, automation, and performance engineering.

- Custom-designed, self-contained HTML/CSS/JS build (WordPress-block portable) with a distinct signature design per section
- Interactive elements: a live budget-leak calculator widget, click-to-expand service cards, animated process rail, hub-and-spoke industries diagram
- Packaged as an installable WordPress theme (header/footer/page templates, custom nav menu) for deployment on the client's own WordPress site

Davakana

davakana.in

Doctor appointment booking platform

A healthcare booking platform enabling patients to find and schedule appointments with medical doctors online — built and delivered for a client.

- End-to-end doctor discovery and appointment scheduling workflow
- Delivered as a client-owned platform
